Features

The optional reflector is available to create a traditional high-bay aesthetic. However, these reflectors are not needed and its installation does not substantially alter the light distribution. The Filamento lamp has integral optics that create a cutoff at 50°, eliminating glare so an external reflector is not required.

- Solid polycarbonate reflector
- Reflectors are vented to allow for airflow
- Compatible with all ADP mounting bases
- Compatible with all VA6 mogul base lamps
- Easy to install - Simply twist and lock assembly to ADP mounting bases, no tools required
- Optional diffuser, drop lens, wireguard accessories
- ADP mounting bases are sold separately
- See website for Installation Guide
